## Disclaimer

The Registered Professional commits that they:

- Will prepare and submit project documents that meet the requirements identified by the Toronto Port Authority Project Planning & Facility Alteration Permit Guide relative to the scope of work identified in the permit application.
- Will undertake the general review of the construction of the project via periodic site as determined to be necessary to determine the general conformity of the work with the project documents that were submitted in support of the Facility Alteration Permit.
- Will review all changes to the design documents to verify that the changes conform to the Toronto Port Authority Project Planning & Facility Alteration Permit Guide.
- Will review and provide comments on shop drawings.
- Will complete and return to the Permit Office the Assurance of Professional Field Review form prior to the occupancy or use of the finished work being granted by Toronto Port Authority.
